

Dear Sirs:I subscribe to XM radio and I listen to it all the time. It plays music and educates me on new artists and releases, all information I can't get from any regular am or fm station. Since I pay for this, I don't see how the NAB has the right to tell me what I can and can't listen to. Let them provide 24 hour weather and traffic reports and I might consider listening to them. Please reject NAB petition 04-160 and let me and over a million other listeners (and voters) have our XM radio.

Thank you,
Jeff Willis
